

## Author Academy eCourse Video 4 Exercise 4

It's now time to take each event on your timeline and add 4 to 6 subtopics into each one. This process will help you flesh out your book.

So, for example, your main character is born, what are 4 to 6 things that happened leading up to the birth, at the time of the birth and after the birth? By listing what these steps are you can then write about each step in more detail, once all these steps have been written about in detail, they are what becomes your chapter!
